PROFESSIONAL SUMMARY

A passionate and solutions-driven Full Stack web developer with a Full-Stack Engineering certificate from UNC Charlotte. Currently, a Freelance Website Developer creating responsive websites for various clients.

SKILLS

HTML, CSS, JAVASCRIPT, PYTHON, MYSQL, POSTGRESQL, REACT.JS, NEXT.JS, MVC, MongoDB, PWAS, REST API, JSON, JQUERY, MERN STACK, ANIMATION, AUTODESK MAYA

EDUCATION

BACHELOR IN INFORMATION TECHNOLOGY

Western Governors University, Millcreek UT | In Progress

Currently enrolled in their Accelerated Information Technology Bachelor's and Master's Degree program

EXPERIENCE

JUNIOR DEVELOPER

Sept 2023 - present Center For Life Management, Derry, New Hampshire

Maintaining the company's databases and creating forms for medical professionals to use for patient information and billing. Help resolve tickets and troubleshoot IT issues throughout the facility.

WEB DESIGNER

Nov 2022 - present Freelance Web Development, Charlotte, North Carolina

Designed NFT minting websites and worked on portfolios for clients.

ANIMATION

Oct 2016 - present Pure Imagination Studios, Charlotte, North Carolina

I create animations for entertainment purposes on YouTube and TikTok and freelance animation work for others in the cryptocurrency and entertainment world. I have accumulated a total of 2.3 million followers. I have gained up to 14 million views on my animations.

CERTIFIED PHARMACY TECHNICIAN (CPHT)

Jan 2010 - Oct 2016 Olathe Medical Center, Olathe Kansas

I worked in the ER department, distributing medications to patients and collecting medication reconciliations for the physicians. I also trained other Pharmacy Technician students and provided them with the knowledge and materials to pass their PTCB Exams.

PROJECTS

PET PALS NFT

This project was created to provide a minting website for the NFT line Pet Pals on OpenSea. It comes built with a functioning smart contract.

Tools Used: React.js, Next.js, Node.js, JavaScript, Saas, Solidity, Web 3.0

Project Link: <https://petpals-two.vercel.app/>

FULLSCOPE

This website was created for this social media marketing company.

Tools Used: React, EmailJS, Bootstrap, JavaScript

Project Link: <https://www.fullscopehub.com/>

BULLIES 2 THE RESCUE

This project was built for the nonprofit organization called Bullies 2 the Rescue. The company was in need of a way to take in applications that were a bit more comprehensive and organized.

Tools Used: React, MongoDB, Apollo, JWT, JavaScript, and Tailwind CSS.

Project Link: github.com/SupernalDeity/bullies-to-the-rescue

PERSONAL PORTFOLIO

I designed and put together my portfolio. The tools used in this project are React.js / Next.js and Tailwindcss.
